

SPRINGFEST

A CELEBRATION OF LEARNING, CREATIVITY & COMMUNITY

A Celebration of Learning, Creativity & Community

Springfest is a whole-school event that brings together pupils, teachers, and families to celebrate learning beyond the classroom. Through performances, exhibitions, workshops, and interactive activities, pupils showcase their creativity, curiosity, and collaboration in a joyful and inclusive environment.

Why Springfest Matters

Springfest offers pupils meaningful opportunities to learn by doing. By planning, organising, and presenting their own projects, students build confidence, independence, and a strong sense of responsibility for their learning.

Learning Beyond the Classroom

Springfest allows pupils to:

- take initiative and make decisions
- solve problems and adapt to challenges
- reflect on mistakes and learn from experience

This hands-on approach supports deeper learning and personal growth

Developing Essential Life Skills

Participation in Springfest helps pupils develop:

- teamwork and communication
- organisation and leadership
- creativity and critical thinking
- resilience and adaptability

These skills support both academic success and personal development.

Well-Being & Community

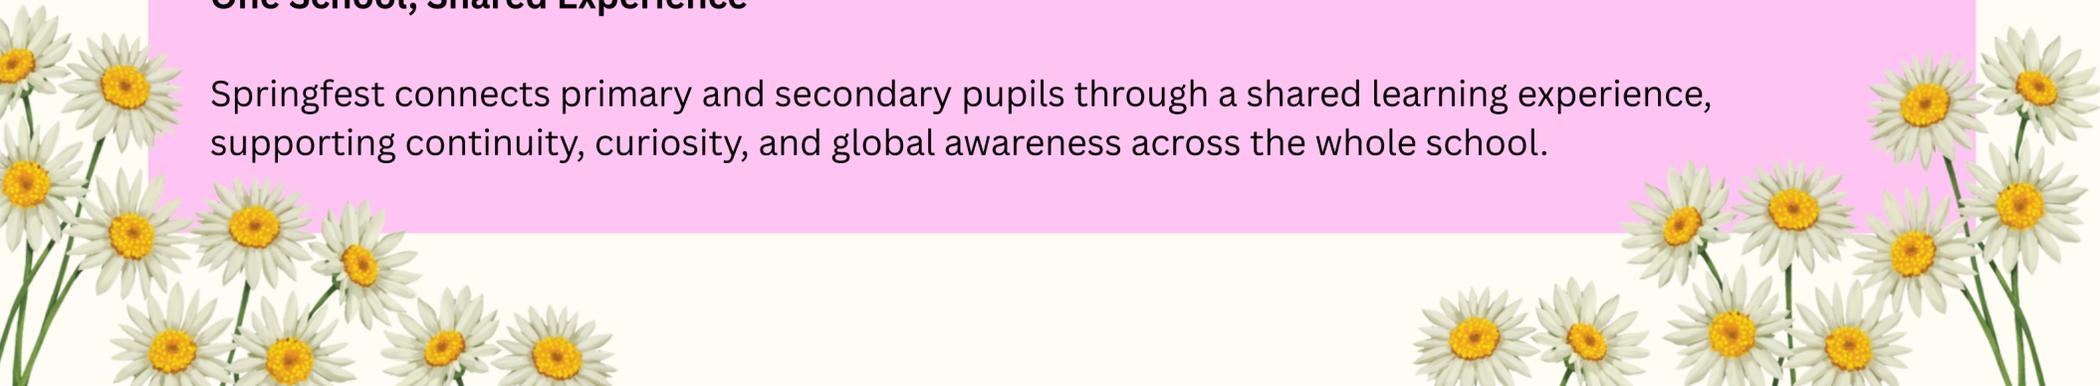

Springfest encourages collaboration across classes, languages, and age groups. The positive and festive atmosphere promotes well-being, respect, and a strong sense of belonging within the school community.

Sustainability & Responsible Citizenship

Sustainability is an integral part of Springfest. Many projects raise awareness of environmental responsibility and encourage thoughtful use of resources, showing pupils how creativity and sustainability can work together.

One School, Shared Experience

Springfest connects primary and secondary pupils through a shared learning experience, supporting continuity, curiosity, and global awareness across the whole school.

The Eight Key Competences for Lifelong Learning

Communication

Pupils express themselves confidently in their mother tongue and foreign languages in authentic contexts.

Multilingual & Cultural Awareness

Collaboration across language sections promotes intercultural understanding and respect.

Mathematical Thinking

Students manage budgets, schedules, logistics, and resources.

Digital Competence

Digital tools are used for planning, promotion, booking systems, and documentation.

Learning to Learn

Pupils reflect, adapt, and take responsibility for their learning journey.

Social & Civic Competences

Teamwork, inclusion, cooperation, and shared responsibility are central to the event.

Initiative & Entrepreneurship

Students propose ideas, lead projects, solve problems, and turn ideas into reality.

Cultural Expression

Music, art, performance, and creativity showcase the school's cultural diversity.
